Scholarship program overview

This grant is a commitment of the Victorian Government to provide financial support for Psychiatric State Enrolled Nurses' (PSEN's) backfill during clinical placements. There are 10 scholarships available each financial year.

Purpose and scope

These scholarships are available to public mental health and wellbeing services to help meet the cost of PSEN's undertaking clinical placement whilst completing a Bachelor of Nursing course.

The grants are worth \$2,717 towards the cost of backfill arrangements and are paid directly to the applying service and not the PSEN.

Applying services who employ PSENs undertaking Bachelor of Nursing study who are Aboriginal and/or Torres Strait Islander, LGBTIQ+, workers with disabilities and culturally diverse PSENs are encouraged to apply. This is to assist in promoting a diverse workforce which was recommended by the Royal Commission into Victoria's Mental Health System.

Public mental health and wellbeing services can apply for as many grants as they choose, however, no more than two PSEN scholarships will be awarded per service. The two will be determined through a merit-based assessment process. This is to ensure financial support is distributed to public mental health and wellbeing services statewide.

Please note that services applying for a grant for PSENs who have not previously received a PSEN grant, those who identify as Aboriginal or Torres Strait Islander and those from regional and rural services will be prioritised and given additional weighting in the application process.

The grants are paid directly to the applying service and not the PSEN.

The Royal Commission into Victoria's Mental Health System

The Royal Commission provides a once-in-a-generation opportunity to reform the mental health system and improve access to services, service navigation and models of care.

The Royal Commission released an interim and final report which recommended a series of programs to build the foundations of a future reform agenda. These reforms aim to ensure Victoria's mental health and wellbeing workforce is well supplied, highly skilled and supported to thrive.

Victoria's Mental Health and Wellbeing Workforce Strategy 2021-2024

Victoria's mental health and wellbeing workforce strategy 2021-2024 ([the Strategy](https://www.health.vic.gov.au/publications/mental-health-workforce-strategy) <<https://www.health.vic.gov.au/publications/mental-health-workforce-strategy>>) was released in 2021 in response to Recommendation 57 from the Royal Commission's final report. The Strategy sets out the Victorian Government's vision and implementation plan for the mental health and wellbeing workforce.

To support the implementation of the Strategy, the department is delivering a scholarship program for mental health professionals in Victoria, as part of the Mental Health and Wellbeing Workforce Scholarship Program.
